

Heyford Park Football Club

Club Ethos

Heyford Park Football Club has been set up to provide youth football in a safe, fun, competitive, sporting environment. It was started by coaches of varying experiences that all shared one ultimate passion and belief of providing the qualities of the aforementioned along with making grassroots football affordable, accessible, achievable and fun.

It is our passion to guide and encourage children of mixed abilities through a wonderful footballing adventure whilst helping them develop football and life skills alongside respecting and understanding the rules and laws of association football.

A code of conduct will be presented to coaches, parents and players, these code of conducts will be there to maintain an agreement of respect for each other, officials, opponents and coaches.

The club wants to have a close community tie and have managed to achieve this by securing close links with the local school, the parish council and the local main contractors.

Although it is early days for Heyford Park Football Club we have established a mutual desire of giving back to the community, with any fundraising sporting events, club social events or general fundraising events being a way of contributing back to the community for some of the profits made.

Because the committee is made up of coaches and parents from all of the teams, decisions will be made with the children's interest as the first thought and what benefits them the most, so they will feel a massive sense of belonging, identity and pride that belongs with wearing the team badge and team colours.

The committee will identify and invite somebody from the local community to be work in contingency with to ensure that they are passing over all relevant information.

All committee meetings will be open and transparent and will be quarterly with an AGM which will be held off season.

The club will desire to achieve the FA charter Standard grade within its first year and will follow the Club Rules associated with this a copy is attached for clarity.

If our club ethos is something that you think that you would like to be part of, please make an enquiry via the contact page on our website, where we will try our best to facilitate you into a team.
